

Downtown Container Program and Doorway Beautification Agreement

I _____ agree to take care of my container(s) and plantings; watering them routinely, keeping the container clean from all debris. The responsibility of the plant material will be solely mine and I will not rely on any other party to water or to keep them looking beautiful. If the plant material dies for any reason, I understand that I am responsible for new plant material at my own expense replacing the plants with greenery comparable to what was initially planted. Each container should always have at least one main plant to stay green throughout the year creating the focal point.

I understand that the container remains the property of the Downtown LaGrange Development Authority. At a point in time I no longer have use for this container(s) I will notify your office. If the container stays empty or with dead plant material for over a period of 30 days, the assumption can be made that I am no longer interested and the downtown development authority has the right to recycle the container passing it along to the next recipient on the list.

I understand that each container (2 business limit) will be planted and delivered to my door with the understanding that it will stay at the entrance.

I am interested in beautifying my entrance with greenery. Sign me up for the Container Program!

Name: _____

Business Name: _____

Phone: _____ Fax: _____

Email Address: _____

I have read and agree to the Doorway Beautification Agreement:

Business Owner's Signature: _____

Date: _____

I am interested in _____ 1 Container _____ 2 Containers _____ I would like more information on upgrading to topiaries at the additional cost to me.
